

# Jérémy CHAZE

Centrale Lille Engineering Student | EDHEC Business School Double Degree

+33 6 98 35 63 53 | jeremy.chaze@centrale.centrelille.fr | Paris - France

Seeking a 12 to 24-month apprenticeship in Data science & AI (Starting Jan. 2027)

## EXPERIENCE

### ALIZE TRADING - Quantitative Research Intern

Jan. 2025 - Feb. 2025 | Paris, FR

- Developed and deployed a predictive ML model for morning fixings using LSTM networks, outperforming Random Forest baselines by capturing multi-period temporal dependencies.
- Designed and backtested statistical arbitrage strategies on European equity indices; automated the full pipeline from data collection to signal generation.
- Collaborated daily with senior traders to translate business needs into technical solutions, communicating results to non-technical stakeholders.
- **Technical Stack:** Python (Scikit-Learn, PyTorch, Pandas), SQL, Bloomberg Terminal.

### EEL ENERGY - Data Science Student Project

Sept. 2024 - Jan. 2026 | Lille, FR

- Built Physics-Informed Neural Networks (PINNs) to simulate energy production from turbulent fluid flows, combining deep learning with physical constraints.
- Ran high-dimensional optimization routines to maximize turbine efficiency; validated models against experimental data.
- **Technical Stack:** MATLAB/Simulink, Python, Numerical Methods, Advanced Calculus.

### CLP JUNIOR ENTREPRISE - Data & Tech Consultant

Sept. 2024 - Jun. 2025 | Lille, FR

- Delivered data-driven studies and technical solutions for corporate clients; bridged business requirements and technical implementation within cross-functional teams.

### ACADOMIA - Private tutor

Sept. 2024 - Jan. 2026 | Lille, FR

- Provided over 170 hours of tutoring in mathematics and physics.

## EDUCATION

### CENTRALE LILLE - Engineering School

Sept. 2024 - Jun. 2028 | Lille, FR

- Final-year Master's student at a multi-disciplinary engineering graduate school, expected to graduate in 2027 with a Master's Degree in Engineering.
- Selected for an academic exchange at PUC-RIO (Brazil) specializing in Machine Learning - competitive selection.
- **Core subjects:** Machine Learning, Applied Mathematics, Advanced Algorithms, Quantitative Finance, Software Engineering.

### EDHEC BUSINESS SCHOOL - Master in Management

Sept. 2026 - Jun. 2028 | Paris, FR (incoming)

- **Core subjects:** Stochastic Calculus, Derivatives Pricing, Interest Rate Models, Econometrics.

### LYCÉE CHAMPOLLION - Classe Préparatoire

Sept. 2022 - Jun. 2024 | Grenoble, FR

- **Core subjects:** Mathematics, Physics, Computer Science and Philosophy.

## PERSONAL PROJECTS

### LOGISTICS OPTIMIZATION - ACTION (Retail Store) - ( [Github : action planning](#) )

2026 | Grenoble, FR

- Developed and deployed a production-ready scheduling app to optimize trolley unloading: Python (FastAPI) backend + React frontend, handling complex operational constraints.
- Currently live and actively used by store personnel - demonstrates ability to deliver end-to-end ML / software solutions in real-world production environments.

### PAIR TRADING STRATEGY - ( [Github : Pair trading project](#) )

2025 | Lille, FR

- Built an end-to-end pair trading pipeline on crypto and equity assets: data collection, preprocessing, cointegration analysis, backtesting and performance optimization.

### CLASH ROYAL WIN PREDICTOR - ( [Github : Win predictor \(2022\)](#) )

2022 | Grenoble, FR

- Developed a win predictor and a deck generator powered by Generative AI (VAE) in TensorFlow.

## TECHNICAL SKILLS & LANGUAGES

- **Programming:** Python (PyTorch, Scikit-Learn, Pandas, FastAPI, PySpark basics), C/C++, SQL, VBA
- **ML & Data:** Deep Learning (LSTM, VAE, PINN), Anomaly Detection, Time Series, Backtesting
- **Tools:** Git, Excel, Bloomberg Terminal, React (basics)
- **Languages:** French (native), English (advanced), Spanish (intermediate)
- **Certifications:** Project Management (MOOC)
- Good team partner, organized, self-aware and communicative person capable of managing conflict and critical thinking.

## EXTRACURRICULAR & INTERESTS

### President - Ski Club Centralitude

2025 - 2026 | Alpe d'Huez, FR

- Led a team of 12 to organize a week-long ski trip for 160 students; managed a €130k budget and negotiated partnerships with sponsors.

Sports : Rugby (15 years, captain), Climbing (6 years), Padel (2 years).
